

**Maroun Mourad**

Bauchrieh Main Street  
Sed El Bauchrieh, Mount Lebanon

**Email:** [maroun233243@gmail.com](mailto:maroun233243@gmail.com) **Phone:** +961 81 83 82 98

**Portfolio:** [maroun-m.github.io](https://maroun-m.github.io)

**CAREER OBJECTIVE**

---

Full-time position as a web developer at a software development company, to develop high-quality front-end for web applications.

**SKILLS**

---

JavaScript ES6, CSS, HTML, Git, Github, Java, API.

**RELEVANT PROJECTS**

---

[kidsworld.netlify.app](https://kidsworld.netlify.app)

Developed a mock e-commerce web application using HTML, CSS, and JavaScript. It consumes the data via API, then displays the data. It also has a fully functional cart, and client-side products filters.

[cwconverter.netlify.app](https://cwconverter.netlify.app)

Developed a price converter that I used for work using JavaScript and CSS. It takes the conversion rate then stores it locally for future sessions, it also has the option to add a discount to the converted price.

**EDUCATION**

---

BSc in Computer Science, Lebanese International University, Mount Lebanon, 2021-present.

**EXPERIENCE**

---

Data Entry, November 2021-present, BabyWorld Sabtieh

Updated the inventory, kept it up-to-date. Maintained the online store, constantly adding new products to the online catalogue, and processed all incoming orders.
